LISTENING TO & SUPPORTING SURVIVORS OF ABUSE

Abuse in a church context can include sexual, physical, emotional, spiritual, and financial abuse that happened in your childhood or as an adult. You may have experienced more than one type of abuse, and it can also be continuing to happen now. It is about an imbalance of power and can have a devastating effect on your life.

It is still vitally important that if you have a concern about something you have experienced in church or a diocesan related activity now or from the past, that you are able to come forward.

The opportunity to speak about the past has not come to an end, and we want to be able to offer you the support and for you to share the information with us. **You will be heard, and you will be taken seriously.**
